STEPS TO EFFECTIVE OUTREACH MINISTRY

1. *Make a decision on what outreach idea you are going to use.*
2. *Determine the cost to execute the idea you are going to use. The more an outreach idea costs does not determine it's success.*
3. *Present your idea to your church leadership. (i. e. Your Pastor/Deacons)*
4. *Decide in what ways the Gospel message will be presented, and keep in mind that presenting the message in several different ways is most effective.*
5. *Gain commitment from some people in your church to help and begin reaching out!*

KEYS FOR FAILURE

1. *Not bathing the event, from start to finish, in prayer.*
2. *Not presenting the Gospel message.*
3. *Not following up with event participants*
4. *Not giving God the glory for the event.*

Each trailer has been custom built and designed for ministry at your church and community. Even the lettering on the side of each trailer can be used as a sign for advertisement during your event. Each trailer comes equipped with everything you need to put on a great event at a fraction of the cost.
